Supply Chain Planning and Sourcing

Driven by intelligent data and backed by decades of expertise, we design supply chains that are fully optimized for cost, lead-times, and consistent quality.

Supply Chain Analysis

We'll assess your current supply chain and use competitive intelligence to find the lowest possible pricing, and options for optimizing your supply chain.

Supply Chain Management

By partnering with EQI to manage your supply chain from end to end—or anywhere in between—you can expect less complexity, greater resiliency, and improved product quality.

Smarter Supply Chains Start Here

With our robust network of public and private supply chain data, we have full transparency into sourcing, risk management, and compliance—all the way down your supply chain.

Complete Supply Chain Transparency

See beyond Tier 1 suppliers and gain access to every layer of your global network with AI-powered supply chain visibility.

Tariff Scenario Planning

Instantly measure tariff risk, uncover smarter sourcing paths, and make proactive moves before disruptions hit.

Confident Sourcing

Improve costs, lead times, and reliability with our in-depth, data-driven assessment of your current program that includes actionable options.

Regulatory Compliance and Risk Management

Gain detailed insights into sourcing origins and supplier practices so you can proactively address compliance issues.

Ready for Any Supply Chain Challenge

Whether you're launching a new product, re-evaluating an existing program, or need full-service management from design to delivery—EQI has the people, data, and global reach to deliver.

Positioned for Agility on a Global Scale

Managing 100,000 metric tons of metal components per year, we have the capacity and expertise across our global network to meet your needs.

With qualified suppliers across China, India, Vietnam, and North America, and an established process for qualifying new suppliers, we make sourcing components easy and efficient.

Our extensive shipping volume gives us direct access to top-tier logistics partners—unlocking flexible options and lower costs for you.

Proven Process for Program Management

Our industry-leading program management services ensure total oversight of the product development process—from quoting to production and beyond.

We embed team members within our suppliers, ensuring that every part is made and delivered on time and to your exact requirements.

Customer-Centric Local Facilities

We reduce customers' lead times and costs while improving efficiency by strategically locating our facilities near key customers and offering value-added services such as powder coating, warehousing, and last-mile delivery.

With an EQI team that's fully embedded from start to finish, we ensure that all parts are delivered to your exact specifications.

Full In-House Capabilities from Concept to Delivery

Kicking off a new project? Have concerns about your current vendors? Looking for a new partner to manage your supply chain? EQI is here to help.

Engineering and Product Design

Product Design for Manufacturing and Product Modeling, Engineer Analysis and Casting Simulations, Prototyping and Testing

Sourcing and Supply Chain Management

Sourcing and Supply Chain Planning, Supply Chain Analysis, Supply Chain Management, Risk Mitigation, Global Logistics

Castings, Forgings, and Fabrications

Dedicated Account Managers, Forecasting and Demand Planning, Onsite Boots-on-the-ground Production Oversight

Precision Machining

Variety of CNC Capabilities, Specialty Machining Capabilities, Variety of Metals, Testing and Certifications

Industrial Coatings

Powder Coat, Wet Paint, Electrocoating and Plating, Anodizing, Certifications

Integrated Warehousing and Last Mile Fulfillment

Customer-Centric Facility Locations, Inventory Management, Assembly and Kitting, Just-in-Time Last Mile Delivery

Over 20 Years of Expertise

When you partner with us, you're tapping into the collective expertise of a team with over 20 years of problem-solving experience in production, procurement, logistics, and risk management for metal components. There's no challenge we can't handle.

Right-Sized Solutions for Every Business

From large corporations to small-scale operations, EQI is your trusted partner for line-ready metal components and supply chain solutions tailored to your needs.
